|---------------|------------|

## EQUIPMENT

|                         |
|-------------------------|
| 1 x Black Grid 8100 615 |
|-------------------------|

## FEATURES

|                           |                                                                                                                          |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Basket 3,5" waste fitting | The drain is equipped with a large 3.5" drain, with the practical basket cap that prevents the discharge of solid parts. |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|

|            |                                                                                                                                                                              |
|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Deep bowls | This bowls reach an important depth, over 20 cm, thanks to the advanced production technology, that can be offer great capieny and practicity in all the washing operations. |
|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                |                                                                                                   |
|----------------|---------------------------------------------------------------------------------------------------|
| High thickness | 1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability. |
|----------------|---------------------------------------------------------------------------------------------------|

|                |                                                                                                                                       |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------|
| MOULDED BOTTOM | The moulded bottom guarantees perfect water flow and facilitates cleaning operations thanks to the perimeter step with sloping walls. |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------|

|                     |                                                                                                                                                                                                             |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Perimetral overflow | The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape. |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
