

Sink FM Marine

Tank on the left

Kitchen Sinks

Code: 1973 962

DETAILS

Edge/Installation Type	Standard (8 mm Edge)
Finish	Foster brushed
Material	Stainless steel AISI 316
Texture	Foster brushed
Base	60-80 cm
Dimensions	970x500 mm
Standard fittings	Fixing hooks, gasket, drain, overflow and siphon, boxed packing
Mixer holes	1 standard hole - 2nd and 3rd on request
Built-in hole	950x480 mm

Drainer	Yes
---------	-----

Width	97 cm
-------	-------

Bowl dimension	362,5x400 + 150x300mm
----------------	-----------------------

Number of bowls	2 bowls
-----------------	---------

Waste fitting	3,5" drain
---------------	------------

FEATURES

2nd / 3rd hole available	The sink can be customized with the execution on request of additional holes, usable for double-hole mixers, for remote controlled drains or for the installation of soap dispensers. The positions are marked on the drawings with dotted line holes.
--------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Added value	Foster uses steel thicknesses higher than those used on average by other manufacturers. This is how, thanks to our long experience, we know how to make sinks of superior quality and with a better resistance to aging.
-------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Basket 3,5" waste fitting	The drain is equipped with a large 3.5" drain, with the practical basket cap that prevents the discharge of solid parts.
---------------------------	--------------------------------------------------------------------------------------------------------------------------

Marine stainless steel	The Marine collection of sinks and hobs uses AISI 316 stainless steel, a superior quality material and widely used in the marine industry, which guarantees the best resistance to the corrosive effects of acids contained in food, salt and detergents.
