| Waste fitting | 3,5" drain |
|---------------|------------|

## FEATURES

|                           |                                                                                                                          |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Basket 3,5" waste fitting | The drain is equipped with a large 3.5" drain, with the practical basket cap that prevents the discharge of solid parts. |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|

|      |                                                                                                                                                                                                                                                                                                                                              |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gold | The Gold finish is obtained by treating the steel with a physical process called PVD (Physical Vacuum Deposition) which deposits particles of noble metals on the surface. The result is a unique and refined aesthetic effect, and an improvement in the mechanical properties of the steel that is more resistant to shocks and scratches. |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                |                                                                                                   |
|----------------|---------------------------------------------------------------------------------------------------|
| High thickness | 1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability. |
|----------------|---------------------------------------------------------------------------------------------------|

|                     |                                                                                                                                                                                                             |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Perimetral overflow | The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape. |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|              |                                                                                                                                            |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Small radius | Bowls with squared shapes with a modern design and an increased capacity, for a minimal aesthetics connected with an extreme practicality. |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------|
