| Safety | Safety valve with quick-acting thermocouple |
| Ignition | Electric ignition under knob |
| Gas type | Tested for installation with natural gas, LPG nozzle set included. |
| Type | Gas Hob |

FEATURES

| | |
|---------------------|--|
| Under-knob ignition | The utmost freedom of movement with electronic under-knob ignition, a common feature of all models that allows a one-hand ignition of the burner. |
| Special burners | Many Foster hobs are equipped with special burners, with two or three rings of fire that greatly increase the power delivered and the heated surface. In the DUAL models the two fire crowns also have independent ignition, making these burners perfect for both intensive and delicate cooking. |
| Safe cooking | All Foster cooker hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out. |
