

## Cooker hob KS

Gas hobs

Code: 7610 032

### DETAILS

Edge/Installation Type	Standard (8 mm Edge)
------------------------	----------------------

Finish	Foster brushed
--------	----------------

Material	AISI 304 stainless steel
----------	--------------------------

Texture	Brushed in line
---------	-----------------

Supply	220-240 V; 50/60 Hz
--------	---------------------

Dimensions	790x500 mm
------------	------------

Base size	80 cm
-----------	-------

Heating element	Five burners
-----------------	--------------

Built-in hole	750x480 mm
---------------	------------

Grids	Cast iron grids and enamelled burner covers
Width	79 cm
Total power	10.150 W
Auxiliary	1.100 W
Semirapid	3x1.750 W
Triple crown	3.800 W
Safety	Safety valve with quick-acting thermocouple
Ignition	Electric ignition under knob
Gas type	Tested for installation with natural gas, LPG nozzle set included.
Type	Gas Hob

## FEATURES

Cast iron grids	Cast-iron is the ideal material for an hob grid, this due to the manifold properties characterising it: high heat capacity that improves cooking performance; high weight and stability that improve safety; sturdiness that preserves the hob's original aspect over time; easy cleaning.
Iii series burners	III ^ series burners: 20% gas savings. They guarantee an efficiency well above the European standards. Furthermore, the improved combustion of gas allows the development of higher powers. From the point of view of safety, the blocking system between the cover and the flame-spreader guarantees perfect positioning and greater ease of cleaning.

## Inclined recess

A deep and inclined recess houses the burners and grigs, allowing to create a single work surface. The inclination also makes it extremely easy to clean the edges.

---

## In-line burners

It is the most natural, safe and functional burner arrangement. A single line of fires all accessible without any hindrance. A classic from the Foster Collections.

---

## Safe cooking

All Foster cooker hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out.

---

## Under-knob ignition

The utmost freedom of movement with electronic under-knob ignition, a common feature of all models that allows a one-hand ignition of the burner.
