

Cooker hob Foster Milano

Gas hobs

Code: 7646 000

DETAILS

Edge/Installation Type	Q4 (4 mm Edge)
------------------------	----------------

Finish	Foster brushed
--------	----------------

Material	AISI 304 stainless steel
----------	--------------------------

Texture	Brushed in line
---------	-----------------

Supply	220-240 V; 50/60 Hz
--------	---------------------

Dimensions	1154x560 mm
------------	-------------

Base size	120cm
-----------	-------

Heating element	Five burners
-----------------	--------------

Cut out	1134x540 mm
---------	-------------

Grids	Cast iron grids and enamelled burner covers
-------	---

Width	115 cm
-------	--------

Total power	11.700 W
-------------	----------

Auxiliary	1.000 W
-----------	---------

Semirapid	2x1.750 W
-----------	-----------

Rapid	3.000 W
-------	---------

Dual	4.200 W
------	---------

Power settings	9 power settings per zone
----------------	---------------------------

Safety	Safety valve with quick-acting thermocouple
--------	---

Ignition	Electric ignition under knob
----------	------------------------------

Gas type	Tested for installation with natural gas, LPG nozzle set included.
----------	--

Type	Gas Hob
------	---------

EQUIPMENT

1 x Cast iron wok support 9601 727

FEATURES

Gas hobs

56 cm deep

56 cm deep. An increased dimension synonymous with great functionality, which distinguishes the Foster Milano series.

Under-knob ignition

The utmost freedom of movement with electronic under-knob ignition, a common feature of all models that allows a one-hand ignition of the burner.

Aeo burners

The AEO burners guarantee up to 25% energy saving compared to standard burners. All models are designed with The Dual burner with 2 independent crowns, controlled by a single knob, delivers from 1 to 5KW, a power that can only be found in professional models.

Special burners

Many Foster hobs are equipped with special burners, with two or three rings of fire that greatly increase the power delivered and the heated surface. In the DUAL models the two fire crowns also have independent ignition, making these burners perfect for both intensive and delicate cooking.

XXL grids

The weighty enamelled cast iron grid has extraordinary dimensions, 33x25 cm, with a working surface up to 50% bigger compared to a standard cooker hob. Now you can use all the burners at the same time even with large cookware.

Cast iron grids

Cast-iron is the ideal material for an hob grid, this due to the manifold properties characterising it: high heat capacity that improves cooking performance; high weight and stability that improve safety; sturdiness that preserves the hob's original aspect over time; easy cleaning.
