## FEATURES

|                            |                                                                                                                                                                                                                                                                  |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Basket 3,5" waste fitting  | The drain is equipped with a large 3.5" drain, with the practical basket cap that prevents the discharge of solid parts.                                                                                                                                         |
| Deep bowls                 | This bowls reach an important depth, over 20 cm, thanks to the advanced production technology, that can be offer great capieny and practicity in all the washing operations.                                                                                     |
| Diamond-shape bottom       | The draining of water is an important feature in a sink, and it's always taken good care of in Foster products. In the bent-welded sinks, which would have a flat bottom, the proper draining is guaranteed by the elegant beveling, which helps the water flow. |
| High thickness             | 1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.                                                                                                                                                                |
| Perimetral overflow        | The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape.                                                      |
| Squared bowls - 0/9 radius | The square bowls of Foster have perfectly squared vertical edges, while those on the bottom have a small radius of 9 mm that facilitates cleaning operations.                                                                                                    |
