

## Sink GK 1401 800

Kitchen Sinks

Code: 1401 800

### DETAILS

Finish	Foster brushed
Material	AISI 304 stainless steel
Texture	Satin
Base	90 cm
Edge/Installation Type	Undermount
Dimensions	860x470 mm
Standard fittings	Fixing hooks, gasket, drain, overflow and siphon, boxed packing
Mixer holes	No standard holes
Built-in hole	View technical data sheet (for all Flush-mount / Top-mount models and Under-mount models)

Drainer	No
Width	86 cm
Bowl dimension	730x400 mm
Number of bowls	1 bowl
Waste fitting	Drain SPACE 3,5"

## FEATURES

Double mixer hole	The large tap counter is already fitted with a series of 2 tap holes. In the second hole it is possible to install the remote control of the automatic drain or, alternatively, a practical soap dispenser.
Diamond-shape bottom	The draining of water is an important feature in a sink, and it's always taken good care of in Foster products. In the bent-welded sinks, which would have a flat bottom, the proper draining is guaranteed by the elegant beveling, which helps the water flow.
Inclined recess	A deep and inclined recess houses the burners and grigs, allowing to create a single work surface. The inclination also makes it extremely easy to clean the edges.
High thickness	1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.
Space waste fitting	The elegant SPACE steel cap closes the drain and leaves no visible residues collected in the basket below. Space also has a small footprint and allows the optimal use of the under-sink compartment.
Squared bowls - 0/9 radius	The square bowls of Foster have perfectly squared vertical edges, while those on the bottom have a small radius of 9 mm that facilitates cleaning operations.
Save space system	Drain and siphon are designed to leave as much space as possible in the under-sink area, more and more useful today for theseparate waste collection systems.
