FEATURES

Auto delayed shutdown	All the models with electronic interface can be programmed to turn off the suction at a postponed moment, so as to prolong the aeration of the room even after the cooking has been completed.
Auto mode function	With the Auto function the hood has temperature sensors and it can automatically set the suction power according to the heat developed by the cooker hob underneath.
Led lighting	Particular attention to energy saving with LED lighting systems. They assure a 10 times lower consumption and a 10 times longer duration. Our LED lights are designed to create an adequate comfort and safety in the cooking area.
Steel filters	Where the filter is in plain sight, the aluminium filtering element is covered in stainless steel. This solution improves the look and increases the durability of the product.
