## FEATURES

Acquastop safety The system stops the water supply and prevents leaks and overflows at source.

---

Adjustable basket The upper basket is simple to adjust in height, even when fully loaded. This allows better space management according to washing needs.

---

Daily clean For medium-soiled crockery, it is the perfect program for everyday use, with a record wash time below the hour.

---

Delayed programming It is possible to program a delayed start of the dishwasher, and thus to optimize the energy consumption during the day.

---

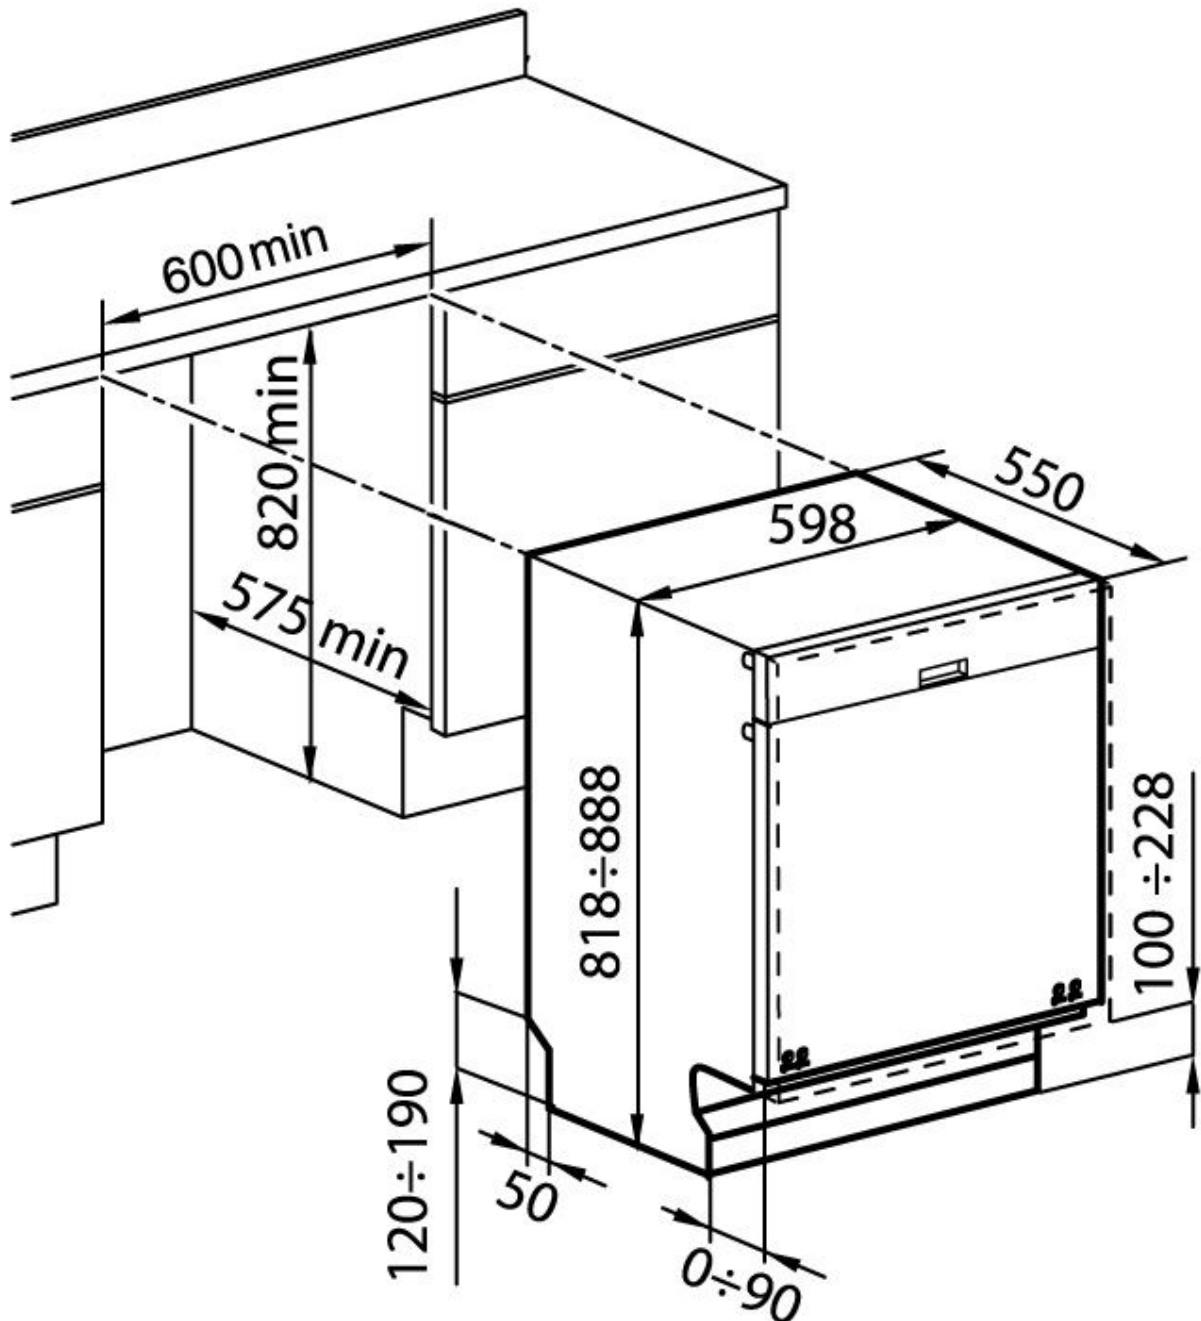

Half-load option Saving time and energy with the half-load setting. Available on all programs.

---

Tabs "all in one"

This option guarantees perfect results with all kinds of detergent. Once it is activated, the washing cycle is adapted to the practical all-in-one tabs instead of the regular detergent.
