|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Deep bowls          | This bowls reach an important depth, over 20 cm, thanks to the advanced production technology, that can be offer great capieny and practicity in all the washing operations.                                |
| High thickness      | 1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.                                                                                                           |
| Perimetral overflow | The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape. |
| Save space system   | Drain and siphon are designed to leave as much space as possible in the under-sink area, more and more useful today for theseparate waste collection systems.                                               |
| Small radius        | Bowls with squared shapes with a modern design and an increased capacity, for a minimal aesthetics connected with an extreme practicity.                                                                    |
| Space waste fitting | The elegant SPACE steel cap closes the drain and leaves no visible residues collected in the basket below. Space also has a small footprint and allows the optimal use of the under-sink compartment.       |
