Grids

Cast iron grids and enamelled burner covers

Total power

9.750 W

Auxiliary

1.000 W

Semirapid

3x1.750 W

Triple crown

3.500 W

Safety

Safety valve with quick-acting thermocouple

Ignition

Electric ignition under knob

Gas type

Tested for installation with natural gas, LPG nozzle set included.

Type

Gas Hob

FEATURES

Cast iron grids

Cast-iron is the ideal material for an hob grid, this due to the manifold properties characterising it: high heat capacity that improves cooking performance; high weight and stability that improve safety; sturdiness that preserves the hob's original aspect over time; easy cleaning.

Safe cooking

All Foster cooker hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out.
