

Cooker hob Elettra Induction 7331 231

Cooker hobs

Code: 7331 231

DETAILS

Edge/Installation Type Bevelled Edge - for flush-mount or over-mount installation

Dimensions 590x520 mm

Base size 59cm

Heating element Three zones

Cut out Check technical data sheet

Material/Finish Black Ceramic glass

Total power 6.400 W

Left Ø 160 mm - 1.400 (2.000)* W

Up-left Ø 160 mm - 1.400 W

Right Ø 200 mm - 2.300 (3.000)* W

Power settings 9 power settings per zone + Powerboost

Safety Safety equipment

Type Induction Hob

Type of commands Touch Control

FEATURES

End-of-cooking programming All operations are programmed by means of the touch-control on the glass itself. Each cooking plate is capable of independent programming, and thus the possibility to set different cooking times.

Pot detector All induction cooker hobs detect the pot resting on them, but they also calculate the area they cover. This system allows the energy to be used even more efficiently. Moreover, the plates switch off automatically when the pot is removed.

Powerboost Booster function provides increased power to the selected plate. In particular, when the Booster is activated, the plate works for ten minutes at a very high power that allows to heat quickly large quantities of water.

Safety All electric cooker hobs feature the most modern and sophisticated safety protections: Centralised power-off function; Child-proof safety lock; Residual heat warning lights. Induction models feature the following functions: Safety System that turn off the hob in the absence of the pot; Overflow detector that automatically turns off the plate in case of liquid overflow; Automatic deactivation to prevent accidents caused by forgetfulness.

Smart fan system Correct ventilation is essential for the induction hob to function in the best possible way. The Foster system automatically regulates the amount of ventilation to suit the temperatures reached.

Timer Independent timer from the end-of-cooking function.
